Stakeholders Feedback Report 2022-2023

NSS College Nemmara offers 15 courses including PG under 11 departments. Feedback from main stakeholders, students, alumni, teachers and employers, were collected by the IQAC on the curriculum and syllabus; basically, on five to six different aspects on a five-point scale response. The overall feedback of each stakeholder is analysed.

Student's Feedback

Students' feedback on curriculum reveals that they are happy with the overall curriculum offered. They opined that they are satisfied with the depth of the course content and responded favourably towards its objectives and relevance. The relevance of the syllabus including practical/ Project work is opined as good. They marked their opinion as average on the capacity of the curriculum in inculcating necessary ethical values. They only have an average opinion about the relevance of the syllabus with regards to higher studies, obtaining employment and excelling competitive exams.

Suggestions

- Introducing Civil Service coaching, NET/SET, Bank, PSC, and various competitive exam coaching classes to the aspirants would be more beneficial.
- Currently NSS College, Nemmara is offering only 3 PG courses (Commerce, Chemistry and Maths). Upgrading the present Undergraduate departments to Post Graduate departments would help the students to exploit the opportunities in higher education sector.
- Curriculum could also be enriched irrespective of the core courses, by adding yoga, meditation, traditional art forms and craft works, to help the students strengthen their mental and physical ability.

Alumni Feedback 2022-23

Surveys were conducted among former students also to get their opinions on various aspects of the curriculum. According to alumni, the curriculum and syllabus are sufficient and are based on necessity. Most graduates shared their happiness about, the extend to which the curriculum has adapted to the contemporary employment trends. They aspired to get into public or private sector quite soon. A few of them observed that the syllabus tends to pique students' interest in their subject area. Students will undoubtedly benefit from this as they continue to investigate their subject areas, and it will also present with opportunities for further study and research in those fields. The college's curriculum fosters students' abilities, and the alumni claim that the course information they mastered is practical in real-world situations.

Suggestions

- Conducting seminars/ webinars on relevant topics based on all subjects and courses would be more fruitful.
- NCC and NSS activities are our campus signature programmes. It should be encouraged and improved at its maximum as it would cultivate disciplined team work, co-ordination skill, leadership, and communication skill among the students.
- Measurements to improve students' activities in arts, and sports through sports meets, students' cultural groups etc. should be encouraged.
- The curriculum must focus on human values such as ethics, morality, life disciplines, patience empathy, cultural values etc as the society is facing a depletion of these values in today's world.

Teacher's Feedback 2022-2023

The teachers also have marked their opinion as good and satisfactory against all the six aspects of the curriculum. It is framed based on the current academic objectives. The objectives of the curriculum and syllabus are clearly defined, the course content is followed by reference material, balancing theory, and application, it also satisfactorily creates an interest in the subject teachers and the practical of the science stream satisfies the future academic requirements of the students as well.

Suggestions

- Language and linguistics paper can be replaced by another, or convert it into an elective paper. More theories and criticism should be introduced in the 1st year itself. Phonetics should be a core paper in the 1st semester itself.
- Internship programmes should be introduced. A practical oriented paper through visits in the industrial sector is also welcomed in the commerce and economics stream.
- It also observed that the audit courses are not beneficial to the students, in its place more practically useful papers such as yoga and meditation, self defence courses, human value-oriented papers, psychology related or papers improving the mental strength and ability of the students are invited.

Employer's Feedback 2022-2023

Highest percentage of responses from the employers' feedback on curriculum was good and excellent in all cases, that is, curriculum offered by the institution in all the 15 courses including PG courses are relevant for making the students employable, effectively developing skill oriented human resources, offers much scope for higher education/ employment, provide adequate awareness in the recent developments in the respective fields, assist in innovative thinking, envisaging a holistic development of the students. The project work must be allotted in such a way as to increase the creativity and the critical reasoning of the students.

Suggestions

- The students should be closer to industry professionalism and needs to provide more of corporate exposure with internships (particularly for Commerce and BBA students), Industrial visit, field visit etc.
- The opportunity to inculcate research experience by associating with state level/national level funding agencies should also be incorporated with the present curriculum.
- The students particularly from the science stream should be provided with an open stage to exhibit their experiments, inventions, and innovations.
